INFRARED

THE DIFFERENCE BETWEEN BROAD SPECTRUM AND FULL SPECTRUM PROTECTION

“Broad spectrum” means protection from both UVB and UVA.

But, UV rays only count for 10% of total sun rays. The remaining 90% is made up of visible light and infrareds. These penetrate more deeply into the skin and cause premature aging and dark spots.

Our skin needs protection from all four.

“Full spectrum” protection targets 100% of sun rays:
It protects from UVA, UVB, visible light and infrared.

Full spectrum protection offers **extensive protection** that traditional sun filters can not provide. Protects skin cells from **DNA Damages, UV, IR, visible light exposure and Free Radicals.**

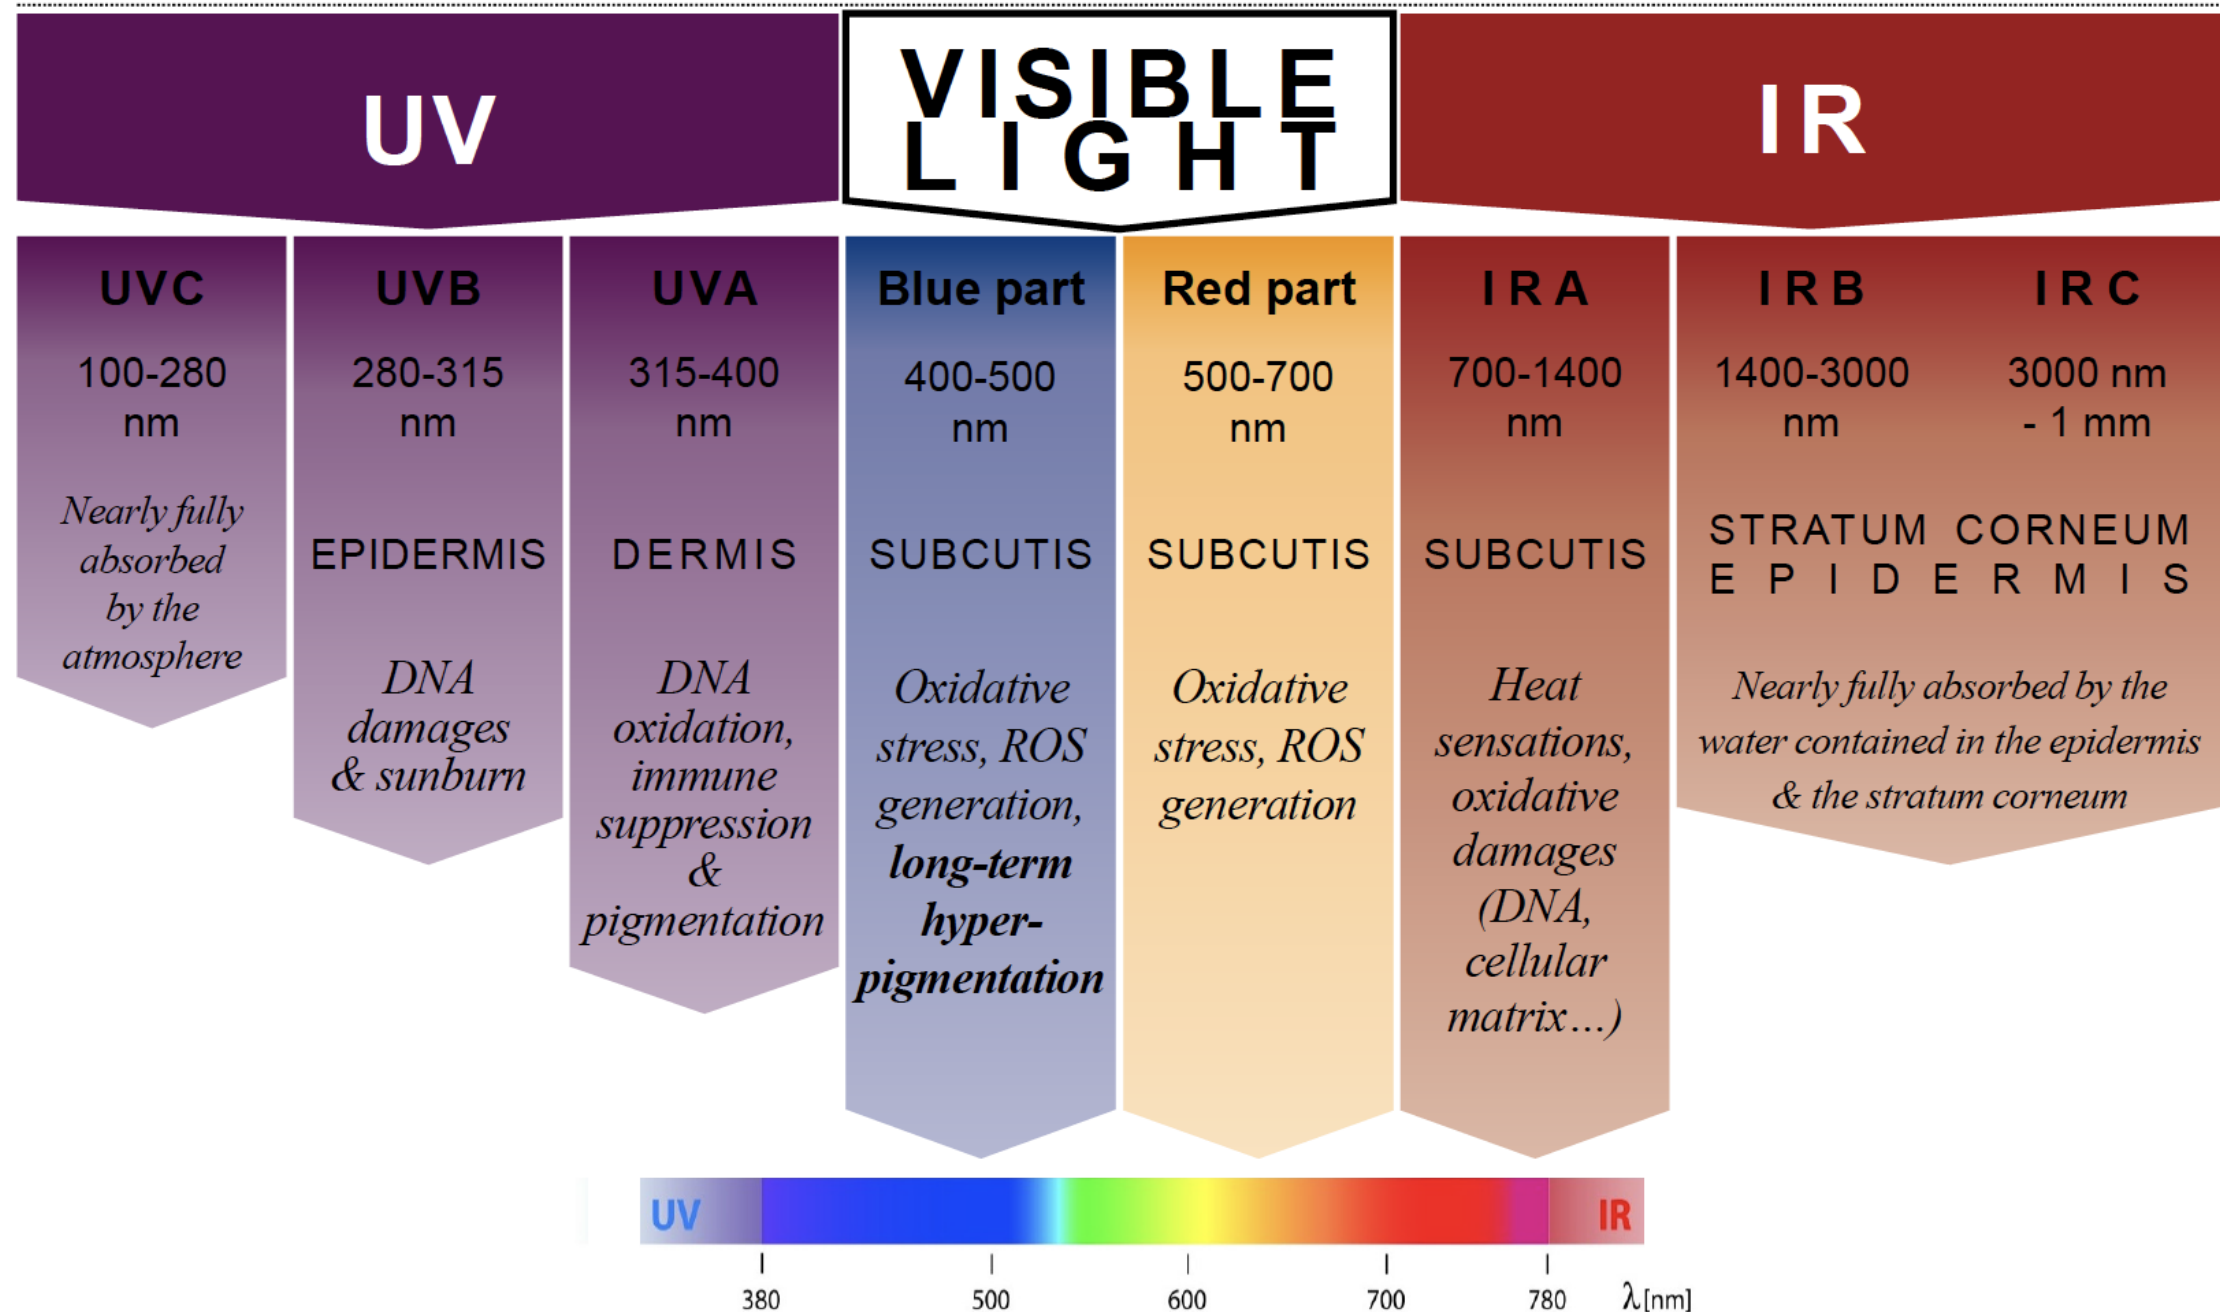

Other than sun, visible light is also produced by computers, smart phones and I pads.

We are inspired by the nature

Sunlight spectrum

Induces direct effects on the skin – SUM UP

Since Infrared A and visible light have longer wavelength comparing UVA, they damage the collagen and increase melanin production by penetrating deeply into the skin.

BIO BALANCE PRESENTS NEW FULL SPECTRUM PROTECTION RANGE

1. Bio Balance AKN SUN MATTIFYING FACE AQUA FUSION FOR ACNE PRONE SKIN
2. Bio Balance AKN SUN MATTIFYING FACE AQUA FUSION FOR ACNE PRONE SKIN TINTED MEDIUM
3. Bio Balance SUN SPOT EVEN TONE AQUA FUSION TO CONTROL HYPERPIGMENTATION
4. Bio Balance SUN SPOT EVEN TONE AQUA FUSION TO CONTROL HYPERPIGMENTATION TINTED MEDIUM

FULL SPECTRUM PROTECTION AGAINST
UVA & UVB, High Energy Visible Blue Light, Infrared A

AKNSUN Mattifying Face Aqua Fusion For Oily, Acne-Prone Skin

The water based, ultra light, dry-touch formula also
**combines carefully selected active ingredients
against oily skin problems;**

- ✓ Nordihydroguaiaretic Acid and Oleanolic Acid improve appearance of oily skin,
- ✓ Lactic Acid and Natural Fruit Acids gently exfoliate skin and fight enlarged pores,
- ✓ Sebum regulating complex reduces shiny appearance,
- ✓ Antioxidant Vitamin E and Glycerin powerfully moisturizes skin.

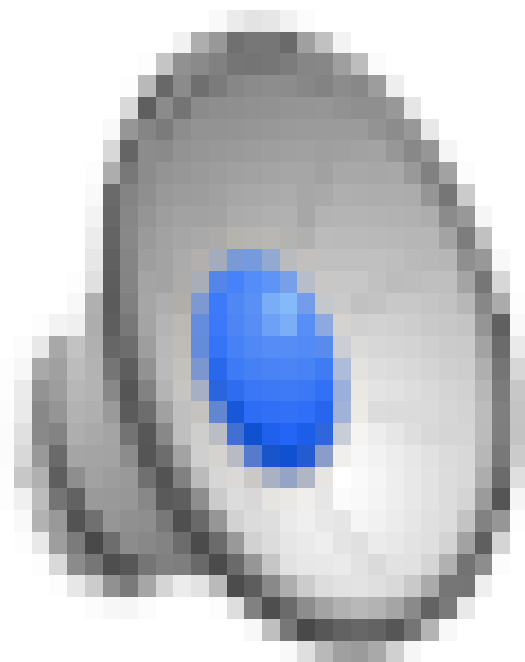

FULL SPECTRUM PROTECTION AGAINST
UVA & UVB, High Energy Visible Blue Light, Infrared A

SUNSPOT Even Tone Aqua Fusion COLOUR CONTROL & DARK SPOTS

The water based, ultra light, dry-touch formula also **combines carefully selected active ingredients against oily skin problems;**

- ✓ **SymBright** reduces dark spots, enhances the luminosity of the skin and protects it against environmental aggressions,
- ✓ **Niacinamide** fights spots, evens out skin tone,
- ✓ **Anti-Pollution Complex Inositol** to shield the skin from the harmful effects of pollution
- ✓ **Antioxidant Olive Oil Squalane** which strengthens the skin barrier to prevent moisture loss.
