

VISION[®]
BIOTECHNOLOGY

“QUALITY, WE TRUST”

ABOUT US

Vision Biotechnology was established in 2012 as Cesna Biotechnology in Kadıköy, Istanbul. Its journey started as a distributor of famous brands including 3M, Merck and Thermo and continued with R&D activities under the brand name Vision Biotechnology in 2015. After developing "Vision GMO Screening Kit" as the first commercial product in 2016, the company very fast became a global Turkish brand, offering services with 240 experts and 160 approved products in 43 countries and 5 continents across the globe, under the motto "On the way of becoming a World brand.."

VISION

Under the motto, "Just Dream, Desire, and Realize", it is our vision to extent our production and R&D expertise in life sciences and biotechnology to the field of diagnostics.

It is our goal to become a globally acknowledged, international brand in diagnostics.

MISSION

Raising awareness of the importance of diagnosis for treatment with the help of our experienced team using the latest technology in our field.

Developing projects and products in the diagnostic field and reaching all parts of the world regardless of the income rate.

REAL-TIME qPCR TEST KITS

Real-time qPCR is a well-established technique that can amplify and quantify or detect the target DNA simultaneously, providing fast and reliable results in diagnostics.

Vision Biotechnology offers a wide range of qPCR test kits for both qualitative and quantitative assessment of various diseases.

LFA RAPID TEST KITS

Lateral Flow Immunoassay, or rapid test, is a fast, cheap, and simple device intended to detect the presence of a target substance.

LFAs are widely used in medical diagnostics in the home, at the point of care, and in the laboratory.

Vision Biotechnology offers a wide range of rapid test kits for the qualitative assessment of various diseases.
