About Us

Hekim Pharmaceuticals started its health journey in 2012.

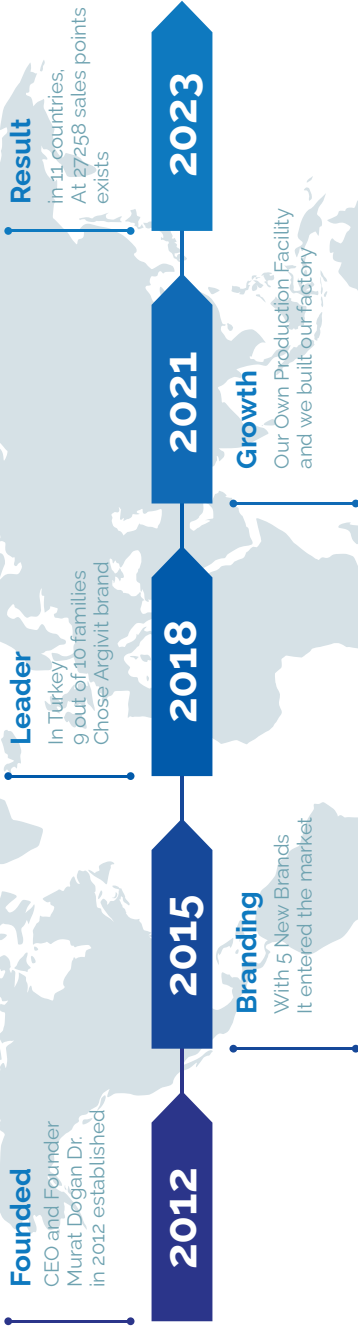

Having over-the-counter products in its product range, the Company continues its R&D studies and investments, which it attaches great importance to, without slowing down.

To become a leading and international brand in the Turkish pharmaceutical industry; We work passionately to improve the lives and the world we touch, with our innovative products and services, and our bold and pioneering initiatives. We believe that to carry out all our activities, business processes and relations within the framework of ethical rules, our understanding of quality exists not only in what we produce, but also in the culture of the management, employees and the company as a whole. We aim to contribute to human health by making quality a lifestyle, continuing its activities with the awareness of respect for the environment, open to change, reliable, prioritizing customer satisfaction and medical ethics.

We do our job with Love

History

Production

CREATE THE HEALTH PRODUCTS YOU WANT

Hekim Pharmaceuticals is a contract manufacturing center in Turkey. Wherever you are, our experts develop cosmetics and nutritional supplements of your choice under your name. Hekim Pharmaceuticals marketing team predicts future trends while examining your project. We ensure optimal scientific monitoring of raw materials and active ingredients.

SPECIAL PRODUCT DEVELOPMENT FOR THE HEALTH SECTOR

The healthcare industry is highly competitive and innovation is important. At Hekim Pharmaceuticals, we are always excited to help you develop a new product to achieve your goal. Every project is a collaborative effort to find the best solution for your brand or identity. We review every aspect of your marketing brief to create and supply the health products you are looking for. We consider your strategy, brand image, timeline and economic constraints to help you make the right choices.

DETERMINING THE BUSINESS IDEA

Custom healthcare products for your target market Your target audience is the key to your success: Your new healthcare product must meet expectations to stand a chance of success. When creating product features, the habits and culture of your target market are a determining factor. Hekim Pharmaceuticals even takes into account your distribution network, as it can affect the packaging design and size.

Innovation is our core business: Being a pioneer in our field is our goal. Hekim Pharmaceuticals Laboratory always continues its ongoing R&D studies alongside technology, as evidenced by the diversity of our product range: from cosmetic products to dietary supplements and hair care perfumes.

A window into nature: For more than 10 years, Hekim ilaç marries nature and strategy.

Doğal concentrates on the enormous wealth that Hekim Pharmaceuticals Laboratory works to reveal with its product formulations. Our functional ingredient blends exemplify Hekim Pharmaceuticals Laboratory's pioneering approach to finding the best agents wherever they are located. Natural cosmetologists, we create quality and personalized products that respect the environment.

Our team of experts keeps up with the latest healthcare innovations by providing ongoing competitive intelligence in raw materials and tissues. Members of our R&D team, who are true experts in dermo-cosmetics formulation, take a proactive stance and will recommend formulas to suit your needs. In practical terms, this means:

- Raw material research • Formulation development • Physico-chemical characterization of the most active substances and components
- Enforcement of regulatory compliance of ingredients, activities and formulations in export markets • Traceability at every stage of the production process
- Industrial production transfer in cooperation with manufacturing teams • Implementation of efficacy tests in accordance with authoritative claims
- Interpretation of tests and study results (stability, efficacy, tolerability, microbiology, etc.)

We believe the effectiveness of formulations must be proven before making any claims. We develop for you turnkey effective and innovative cosmetic formulations with scientifically proven actions. Tell us your specifications and constraints and we'll make a unique offer for your brand.

Argivit®

BLEPHIX®

100 ML FOAM SHAMPOO

- WITH TEA TREE OIL
- TAURINE CONTAINS

Directions for Use:

Wash your hands before each use. Gently wipe the eyelid until all makeup, dirt, oil and residue is removed. Then repeat on the other eye. Each wipe is used for one eyelid and eyelashes. Use a new tissue for the other eye. It helps to remove sebum, dust, germs and all other make-up.

Argivit®

BLEPHIX®

50 ML SHAMPOO

- WITH TEA TREE OIL
- TAURINE CONTAINS

Directions for Use:

Wash hands before each use. Shake well before use apply a small amount of shampoo on the brush using the foaming pump. Apply the shampoo to the lashes and around the eye area to remove make up and oil residue. Using gentle movements rub up and down along the lashes. Rinse thoroughly with water. Suitable for daily use to clean extensions. Helps remover sebum, dust, germs and all other makeup.

Argivit®

BLEPHIX®

30 PIECE WIPES

- WITH TEA TREE OIL
