

## A collage of 15 images illustrating various aspects of healthcare and medicine. The images include: a smiling elderly couple; a young boy smiling; a surgeon in a mask and gloves; two female doctors in white coats; a microscope; an elderly couple walking with a cane; a male doctor in a white coat; a close-up of a person wearing safety goggles; a DNA double helix; a nurse attending to an elderly patient in a hospital bed; a hand holding a stack of colorful pills; a person carrying a child on their shoulders; a smiling elderly couple; a close-up of pills on a surface; a young girl hugging a teddy bear; and a close-up of a person wearing safety goggles.

The figure consists of two world maps illustrating the geographical distribution of research and innovation topics. The left map, titled 'HEALTH', shows a high concentration of research topics in North America and Europe, with 'HEALTH' and 'RESEARCH' being the most prominent words. The right map, titled 'GROWTH', shows a high concentration of research topics in Asia and Europe, with 'GROWTH' and 'INNOVATION' being the most prominent words. The maps use color-coded regions (North America in red, Europe in blue, Asia in green, and Africa in yellow) to show the distribution of these topics. The size of the words indicates their frequency, and the color of the words matches the color of the region they are most associated with.
